CAPSTONE PROJECTS EXPLORE, INNOVATE AND LOOK TO THE FUTURE

Students in 6th, 7th and 8th grade presented their Capstone Projects at the Spring Showcase on Tuesday, May 23rd, 2017. Capstone projects satisfy eight simplified checkpoints spread throughout the year and are integrated into core subject assignments whenever possible.

Capstone Projects are individually based, hands-on opportunities for students to learn in-depth about a subject that interests them. Projects may be based on history, science, fine arts, literature, sports, film, industry and many other topics.
