

Michael Granillo		1 st Quarter	Week Beginning: August 28-31
School Year: 2023-24		Subject: Algebra 2H	
Monday	Notes:	<p>Objective: Students will review graphing linear equations and inequalities</p> <p>Lesson Overview: 1.5 - Students will have a partner, and after every 5 problems, they will trade papers and check each other's work.</p>	Academic Standards: A.CED.3 F.IF.4
Tuesday	Notes:	<p>Objective: Students will be introduced to piece-wise functions. They will begin to write and graph these special case functions.</p> <p>Lesson Overview: 1.6 - Today we will introduce the piece-wise function. Students will take two parts of separate graphs and combine them into one.</p>	Academic Standards: F.IF.4 F.IF.7b
Wednesday	Notes:	<p>Objective: Students will be introduced to absolute value graphs. Building on solving absolute value equations, students will learn why the shape of the graph matters.</p> <p>Lesson Overview: 1.6 - Building on yesterday, we will introduce absolute value graphs and how symmetry and reflections come into play with these functions.</p>	Academic Standards: F.IF.4 F.IF.7b
Thursday	Notes:	<p>Objective: Students will identify and apply transformations to several different graphs.</p> <p>Lesson Overview: 1.7 - We will now put all we have learned in this chapter and learn how to translate, reflect, and dilate parent functions.</p>	Academic Standards: F.IF.4 F.BF.3
Friday	Notes:	<p>Lesson Overview: No School</p>	Academic Standards:
