

Michael Granillo		1 st Quarter	Week Beginning: September 5-8
School Year: 2023-24		Subject: Algebra 1	
Monday	Notes:	Lesson Overview: No School	Academic Standards:
Tuesday	Notes:	Objective: Students will answer essential questions covered in this module as review. They will also demonstrate fluency in solving equations in different styles. Lesson Overview: Chapter 2 Review vocabulary and worksheet.	Academic Standards: NA
Wednesday	Notes:	Objective: Students will demonstrate their level of mastery of the topics in Chapter 2 through a test. Lesson Overview: After bell work and review, students will work on Chapter 2 Test.	Academic Standards: NA
Thursday	Notes:	Objective: Students will represent relations with graphs, ordered pairs, mappings, and tables. Lesson Overview: 3.1 - We will review the test from the previous day. We will then begin Chapter 3 by looking at the 4 ways to represent a relationship between 2 variables. Assignment: pg. 143-145 (1-12, 18)	Academic Standards: N.Q.1 F.IF.1
Friday	Notes:	Objective: When presented with a mapping, table, or ordered pairs, students will determine if it represents a function and apply the function to determine values. Lesson Overview: 3.2 - After defining what a function is, we will look at graphs, tables, ordered pairs, and mappings, to see if they are functions. Assignment: pg. 153-154 (1-18, 28-31)	Academic Standards: F.IF.1 F.IF.2
