	Michael Granillo	2nd Quarter	Week Beginning: October 17th
School Year: 2023-24		Subject: Algebra 1	

	Notes:	Objective: Lesson Overview:	Academic Standards:
Monday	Notes:	Objective: Lesson Overview:	Academic Standards:
Tuesday	Notes:	Objective: Students will apply the principles of solving equations to solving linear inequalities. Lesson Overview: 6.1, 6.2 - We will look at the similar ways that inequalities are solved when compared to equations. Focus will be on the one difference.	Academic Standards: A.CED.1 A.REI.3
Wednesday	Notes:	Objective: Students will learn what a compound inequality is and how we can apply previous concepts to solve and graph them. Lesson Overview: 6.3 -We will investigate inequality graphs and how to read them so we can then solve compound inequalities.	Academic Standards: A.CED.1 A.CED.3
Thursday	Notes:	Objective: Students will investigate tables to begin graphing absolute value graphs, and then apply principles of transformations. Lesson Overview: 6.4 -	Academic A.CED.1 A.CED.3
Friday	Notes:	Objective: Students will have the opportunity to review the topics in chapters 6 Lesson Overview: Chapter 6 review	Academic Standards: All the above
