Michael Granillo	2nd Quarter		Week Beginning: October 23rd
School Year: 2023-24		Subject: Algebra 1	

	Notes:		Academic
Monday		Objective: Students will build on graphing linear equations, by learning how to graph linear inequalities in two variables Lesson Overview: 6.5 - Bellwork will be graphing linear equations so we can then explore how to make them into inequalities.	Academic Standards: A.CED.3 A.REI.12
Tuesday	Notes:	Objective: Students will review the concepts of Chapter 6 Lesson Overview: Chapter 6 Review	Academic Standards:
Wednesday	Notes:	Objective: Students will apply what they have learned in this chapter by a test. Lesson Overview: Chapter 6 Test	Academic Standards:
Thursday	Notes:	Objective: Students will explore systems of equations. They will learn how to solve a system by graphing two linear equations. Lesson Overview: 7.1 - After bell work, we will define what a system is, and then use that definition to look at the first way to solve systems, graphing.	Academic A.REI.6 A.REI.11
Friday	Notes:	Objective: Students will have the opportunity to review their test from Chapter 6 and make corrections. Lesson Overview: Chapter 6 test review	Academic Standards:
